Thank you for your donation

Thank you so much for your ADA donation to Save the Children's 'Kumwe Hub'. 'Kumwe' means 'together' in the Kinyarwanda language.

Your donation will help us take an innovative new approach to help children survive, learn and be protected in Rwanda. We're working together with social enterprises across the country and beyond: investing in their work, supporting their growth, and using our own influence, expertise and experience to open new doors to help increase their positive impact. We believe we can help thousands more children this way.

Save the Children has an exciting new approach that aims at looking into local solutions and generating impactful investments in the country. It is the generosity, foresight and kindness of people like you that makes all this possible.
